# Why HIT Magazine Exists

A VISION TO INSPIRE.  
A MISSION TO CONNECT.

Coimbatore is more than an industrial hub—it is a city of dreamers, creators, and builders. Over the years, I've seen our home & interior industry grow beautifully, with incredible talent, craftsmanship, and innovation shaping the way we live.

But in today's digital world, visibility is everything. Many amazing businesses struggle to reach the right audience. That's where **HIT Magazine** was born.

**HIT Magazine**, under the HomeIdeas ecosystem, is our effort to bridge this gap. We blend the power of print with digital intelligence to connect the right businesses with the right customers—seamlessly.

Through inspiring stories, expert insights, and a strong digital platform, we aim to empower home industry professionals and help homeowners make confident, beautiful choices.

This is just the beginning. Together, we will shape a future where Coimbatore becomes a benchmark for home & interior excellence in India and beyond.

“ Our dream is simple — to build the most trusted home ecosystem where businesses grow and homes come to life. ”

— Vikram Rajendran  
Founder, HomeIdeas.in

EXPERT TALK

# Building Better Homes, Together.

We speak with experts from architecture, engineering and interior design to uncover valuable insights on avoiding common mistakes, planning your budget wisely, and designing interiors that truly elevate your living experience.

ARCHITECT'S PERSPECTIVE

**AR. ROHAN MEHRA**  
PRINCIPAL ARCHITECT, STUDIO ORIGIN

**WHAT ARE THE TOP MISTAKES PEOPLE MAKE IN HOME DESIGN?**

Poor space planning, ignoring natural light and ventilation, and not thinking about future needs are the most common mistakes.

**HOW SHOULD ONE PLAN A REALISTIC BUDGET?**

Start with a clear understanding of your needs vs. wants. Allocate 10-15% extra for contingencies and never compromise on structure and quality.

**ONE TIP FOR A WELL-DESIGNED HOME?**

A well-designed home is not about size, it's about how well the space works for you.

“ Good design is not just what it looks like, it's how it lives. ”

ENGINEER'S ADVICE

**ER. VIKRAM NAIR**  
STRUCTURAL ENGINEER

**WHAT ARE COMMON CONSTRUCTION MISTAKES TO AVOID?**

Using inferior materials, poor supervision and ignoring structural drawings can lead to major problems and extra costs later.

**HOW DO YOU SUGGEST BUDGETS BE MANAGED ON SITE?**

Track every cost, avoid last-minute changes and work with transparent vendors and contractors. Proper planning saves significant money.

**YOUR GOLDEN RULE FOR A STRONG HOME?**

Follow the drawings, use quality materials and never skip the curing!

“ A strong foundation today ensures peace of mind forever. ”

INTERIOR CONSULTANT'S INSIGHTS

**NEHA SETHI**  
INTERIOR CONSULTANT

**WHAT INTERIOR MISTAKES DO PEOPLE OFTEN MAKE?**

Ignoring functionality, choosing the wrong furniture sizes and skipping a coherent color palette.

**HOW SHOULD ONE PLAN INTERIOR BUDGETS EFFECTIVELY?**

Prioritize key areas first, invest in timeless pieces and finishes, and balance aesthetics with durability.

**YOUR TIP FOR BEAUTIFUL YET PRACTICAL INTERIORS?**

Focus on comfort, storage and lighting. Beauty lies in the details.

“ Interiors should reflect your personality while enhancing everyday living. ”

KEY TAKEAWAYS

Avoid common mistakes by planning well, hiring the right professionals and paying attention to detail.

A realistic budget with proper tracking and quality choices leads to a stress-free experience.

Good design + strong structure + thoughtful interiors = a home that lasts and inspires.
